

The Hague DC

The newest addition in Netrouting data centers is our facility located in the royal city of The Hague, The Netherlands and offers room for up to 150 full size cabinets

Shared and Secured **Colocation**

Proven performance & reliability

THE HAGUE, THE NETHERLANDS

Netrouting THG1 is a modern data center facility that opened in Q4 of 2014. The Hague offers an N+1 redundant power & cooling infrastructure and ring powered Internet connectivity with our flagship facility in Spijkenisse, as well as various other data centers in The Netherlands. The Hague is our new colocation ready facility that also offers access to Twin Data Center features.

<i>Square Meters</i>	:	380 m2
<i>Building</i>	:	1.007 m2. building
<i>Floor Load</i>	:	1500 kilograms per square meter
<i>Ceiling Height</i>	:	~5m, above raised floor
<i>Roof Rights</i>	:	Roof rights available with satellite space
<i>Line of Sight</i>	:	100%
<i>Above Sea Level</i>	:	-3.00m
<i>Fiber</i>	:	Two fiberentry points in to the building
<i>Remote Hands</i>	:	Available 9x5x5 free of charge.
<i>KVMCart</i>	:	KVM carts or Remote KVM available for free upon request

ENVIRONMENTALCONTROLS

<i>Fire Suppression</i>	:	CEA 410
<i>HVAC</i>	:	A/C units maintain a climate of 28 degrees celcius (+/-2) and 30-60% humidity, N+1redundancy. Cold Aisle Containment

POWERSYSTEMS

<i>Power Redundancy</i>	:	A Nobreak ABB/Newave PowerWave 33 B Nobreak ABB/Newave PowerWave 33
<i>UPS & PDU Specs</i>	:	200kVA units backed by a battery chain that offers an autonomy of 12 minutes. N+1 redundancy
<i>Standby Generator</i>	:	Dedicated Perkins Generator
